Title of Program:	<b>Group Discussion on Human Gene Editing: Good or Bad???</b>
Date:	<b>28<sup>th</sup> March 2024</b>
Beneficiaries:	<b>20</b>

**Synopsis**

Department of Zoology and Science Association jointly organized group discussion for B.Sc. and M.Sc. students. For this activity students were distributed in four groups. Students were advised to prepare different topics from Human Gene Editing. The topic of group discussion was "Human Gene Editing: Good or Bad???" During this group discussion students discussed on somatic human gene editing, in vivo editing. Students also discussed applications of gene editing like treating certain types of blood cancers and a small number of rare genetic conditions. If challenges can be overcome, it holds great potential to treat a range of different genetic conditions. Students from group 3 explained all points nicely and secured first place. Dr. S. B. Pol conducted the group discussion.

**Objectives**

**To create awareness about Human Gene Editing among the students.**

**To improve communication skills among the students.**

**Outcomes**

Students become aware about Human Gene Editing.

Communication skills among students were improved.
