Resolution number in meeting:			Date: 9 th July 2021
Synopsis(75-100 words)			

The International Webinar Series on "Opportunities to Develop Research Career in Basic Sciences" was organized by Department of Physics for UG, PG and research scholars from 12th to 14th July 2021. On first day the resource person **Dr. Nanasaheb Thorat, Marie-Sklowska Curie Fellow , Research Scientist, Oxford University, United Kingdome (UK)** shared his journey from Balwant college vita to Oxford university. **On Second Day Dr. Sambhaji Shinde, Research Professor, Department of Materials Science and Chemical Engineering, Hanyang University, Seoul, Korea** has given ideas about the careers of basic sciences in research field. **On third day Dr. Mayur Gaikwad, Postdoctoral Research Associate, Chhonnam National University, South Korea**, delivered talk on synthesis of nanomaterials and different characterization techniques. Total 282 participants form india and outside registered for this international webinar series. Dr. R. S. More, Principal, Balwant College Vita has opened the lecture series with his principals address, Dr. C. R. Bobade, Head Department of Physics and Convener has given introduction of webinar and recourse persons. Mr. Y. A. Pathak and Mr. D. K. Dhongade proposed vote of thanks and Mrs. P. S. Shinde has handeld each session with his anchoring and concluded the webinar with final vote of thanks.

Objectives	Outcomes
To provide a platform to bring together industry professionals, academicians, and researchers from different organizations.	Online interaction of students with industry professionals, academicians and young researchers.
To exchange views and ideas on the advancement in materials research.	An ability to acquire and apply new knowledge as needed in research, using appropriate learning strategies.
To develop a research environment in which young researchers can become active.	774 viewers attended program on YouTube and 427 participants attended on zoom.

Introduction

Science	Technology
It is methodological way of gaining knowledge on particular subject through observation and experiments Ex. Physics, Chemistry, Biology etc It is always useful It does not change with time Ex- Newton's law, Rainbow formation, star formation remains same all time	It is practical application of scientific knowledge for various purposes Ex- X-ray machine, microwave oven It can be harmful or useful Ex- Nuclear energy It changes continuously with time Ex- Computer generations

Journey of Atom
