It is a progressive policy that recognizes the need of the hour and has certainly made bold and historic reforms towards enhancing quality of education and improving student learning outcomes. This policy gives absolute freedom to the students to choose the teachers and courses. It combines the futuristic vision for the country with its glorious past. It encourages a multi-dimensional skillset, builds upon traditions and values, focuses on cultural-linguistic diversity and different backgrounds, and emphasizes on breaking disciplinary boundaries and pedagogical change for cognitive-affective-life skill development of a student. While there are many aspects still to introspect, the charter is truly a testimony of quality discussion and deep thinking”. Smt.
